- ✓ Cybersecurity Intern | Intrainz. [Nov 2023 – Jan 2024 | Remote]

## Trainings/Certifications

- ✓ C for Beginners. [Great Learning]
- ✓ Data Structures Using C. [Great Learning]
- ✓ Git & Github Bootcamp. [LetsUpgrade]
- ✓ AWS Cloud Practitioner Essentials Training. [AWS Skill Builder]
- ✓ Industrial training in Cybersecurity. [Intrainz]
- ✓ Cyber Security and Ethical Hacking Awareness Workshop. [NCIIPC, AICTE]
- ✓ Workshop on Drone Technology. [Drone Club RIT]

## Projects

Project	IntelligentSense Bot
Role	Software Developer.
Description	A multipurpose chatbot to address questions or queries of users based on data of various places like Colleges, Companies, Bus Depo, etc. This chatbot uses Groq LLM and python programming language to work on such data & respond to the users in natural language.
Project	Firm Management Dashboard
Role	Software Developer.
Description	Developed a Firm Management Dashboard to streamline inventory tracking, accounting, and employee productivity monitoring. Built using Python (REST API framework) for backend and React for frontend, ensuring seamless task management and efficient firm operations.
Project	SQL and Programming Visualizer
Role	Software Developer.
Description	Developed an SQL and Programming Visualizer to help users learn SQL and basic programming concepts through an interactive UI. Built using Python (REST API framework) for backend and React for frontend, enabling a visual and engaging learning experience.

## Achievements
